4. Comments:

- 4.1) Please identify what you perceive to be the real strengths and weaknesses of this instructor and course.
- I think that the instructor was good at explaining the concepts in class. I personally would have enjoyed watching videos that visually represent the political situations in each country through a span of time.
 - I thought Manoel was an excellent professor for this class. I did not really know what to expect from taking this class since I have not really taken that many comparative politics classes, but I enjoyed taking this class very much. The way he structured this course gave a great overview of South American politics, and he made me more interested in taking more classes with related topics. Well done!
 - Professor Gehrke is very organized and has great communication skills which made the course easy to follow. Although there was a considerable amount of reading he always included visual statistics that made it easier to see the changes in politics that we discussed in class. He was very good at synthesizing and condensing the material for better understanding. Likewise, he was very welcoming, which made participating easier. It is clear he has extensive knowledge on the field. Additionally I think the assignment for the class was interesting as it integrated films into the context of the class. This was a very engaging class and I enjoyed delving deeper into the history of government and politics in South America.
 - Professor Gehrke was helpful and enthusiastic. It's very tough to cover the history of a region of 10 countries in six weeks, yet I feel I've learned a lot about the patterns and trends. One suggestion would be to post a couple of questions to think about that pertain to the readings for each lecture so there is a common starting point for discussions. This could help with participation.
 - Professor Manoel is a caring professor who cares about his students. He is flexible with his office hours and welcoming. I really appreciate the handouts he will give us. The lecture was engaging and I like the fact we got to learn a little of each country in South America. The readings were too long and a lot of them. I just wish the reading was less difficult to read. Overall, professor Manoel is an excellent professor and definitely learned in his class.
 - The Professor was always prepared, organized and very knowledgeable of the course material. He was always available to his students, very kind, courteous and super nice. Further, I would strongly recommend this professor because his instruction was very informative and I learned a lot. I believe that he will have great success as a Professor and in any other endeavor that he chooses. Awesome!!!!
 - The instructor is very knowledgeable in the course material. His lectures are always well prepared and organized. He also cares about student success and often sends emails or makes class announcements encouraging more students to participate in an attempt to make the class more

interactive. Overall, I consider him an excellent instructor.

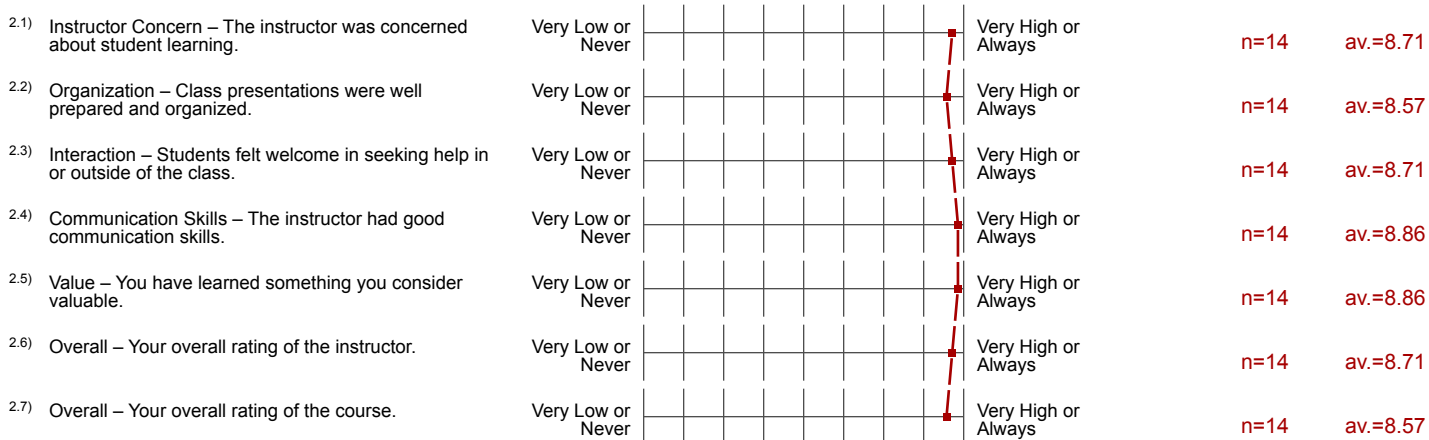

- The instructor was very knowledgeable about the subject and gave great feedback.
- This class was such a great one. Professor GEHRKE RYFF MOREIRA was incredibly knowledgeable and nice. It seemed like he had a great interest in the material. He explained it very well and made us ready for the evaluations. I would take the class again and I would take a class with him!
